

Horizontal Fiber Optic Splice Closure(FOSC)

Features

- The closure adopts horizontal mechanical sealing and advanced internal structure design.
- To adopt engineering PC plastic with high-strength to make the closure has longer life time and excellent sealing performance.
- It can be installed one 1:8 bare or blockless PLC splitter.
- The closure is spacious enough for winding and storing fibers.
- The patented sealing structure keep good sealing performance after re-entry and re-using.
- It works for mid--span and branching.
- It could save the installation time and improve work efficiently.

Applications

- ◆ Suitable for bunchy fibers
- ◆ Aerial, underground, wall-mounting, hand hole-mounting pole-mounting and duct-mounting
- ◆ It's especially applicable to FTTH optical fiber distribution
